**SHED THE DULLNESS: UNVEIL YOUR MOST RADIANT SKIN
WITH A CHEMICAL PEEL.**

Beyond the surface. Our Chemical Peels use advanced formulations to correct skin at a cellular level, delivering superior results for clarity and firmness. Melissa has been using Chemical peels in her practice for over 8 years. She will custom blend a peel just for you! Ready for clinical-grade glow?

The Peel That's Uniquely Yours: Custom Peel Service

Stop guessing what your skin needs. Our bespoke chemical peel service starts with a professional **UV Skin Analysis**—a high-tech consultation that highlights hidden issues like **congestion, dehydration, and underlying pigmentation** that are invisible to the naked eye.

Based on that precise analysis, we **custom-blend** a cocktail of chemical peels specifically for your skin's exact condition on the day of your treatment.

This isn't a one-size-fits-all approach—it's **100% customised** to deliver optimal clarity, texture, and radiance.

THE 7-STEP REVIVAL: INSTANTLY PLUMP, HYDRATE, AND GLOW

If you're ready for instantly glowing, deeply clean skin without the irritation and you need to experience Aqua Facial. Think of it as the ultimate facial trifecta: exfoliation, deep cleansing, and hydration, all in one relaxing, non-invasive treatment.

Whats included?

1. **Steam Cleanse** prepares the skin for deep cleaning and treatment. It involves exposing the face to a relaxing, warm vapor (steam) with active cleansers
2. **Enzyme Peel** acts as a powerful pre-exfoliator and deep-cleanser that will Retexturize rough skin and prime your skin to get maximum results from the hydrodermabrasion machine.

Hydrodermabrasion Machine

Step 3 Exfoliation and Water Jet: A special wand is passed over your skin, delivering a high-velocity stream of water and gentle exfoliating solutions. This water jet acts like a gentle sandblaster, effectively removing the top layer of dead, dull skin cells.

Step 4 Deep Clean (Vacuum): The same wand has a gentle suction that vacuums up all the dead skin, dirt, and oil from your pores. It's like a small, powerful vacuum for your pores.

Step 5 Hydration and Infusion: Once the skin is clean, the machine then infuses the fresh, new skin with customised serums (like hyaluronic acid and antioxidants). Because the old skin cells have been removed, the serums soak in deeply.

6 Dermalux LED phototherapy is a treatment that uses clinically proven light wavelengths to energise cells, accelerating repair and stimulating collagen for visibly rejuvenated, clearer, and healthier skin

7 The Red Carpet Facial, a brilliant, three-step antioxidant therapy designed to transform dull, sluggish, or stressed skin with zero downtime and instant glow.

MICRONEEDLING	45 MINS	£130
----------------------	----------------	-------------

or Collagen Induction Therapy—is the powerful, minimally invasive treatment that creates thousands of controlled micro-channels in your skin to launch a massive production of fresh, resilient collagen and elastin. Firms and tightens skin while reducing the appearance of fine lines and wrinkles. A course of 6 treatments is recommended for most patients at 4-6 weekly intervals.

Whats included?

- 1. Double Cleanse** This ensures your skin is completely clear of all impurities—both oil-based and water-based cleansers are used to prep the skin for treatment.
- 2. Microneedling with Peptide and epidermal growth factor blend** that works to reduce the appearance of fine lines, wrinkles, and enlarged pores while firming, tightening and strengthening skin.
- 3. Dermalux Light Therapy** is a treatment that uses clinically proven light wavelengths to energise cells, accelerating repair and stimulating collagen for visibly rejuvenated, clearer, and healthier skin.
- 3. Treatment Booster** Boost your professional treatment to the next level with the Treatment Booster, the retinoid and antioxidant powerhouse that maximise results while soothing the skin.
